

CARPIGIANI

UF-253 G/P

Double Flavor Twist Floor Model

Dependable, the Word That Best Describes the “253.”

This high performance soft serve freezer combines state-of-the-art technology with simple and efficient operation. It provides high production for two individual flavors of frozen dessert, or a combination ‘twist’.

The UF-253 offers maximum flexibility for a wide range of products, and is able to serve ice cream, custard, yogurts, or sherbets, in any combination. The “253 will outperform all comparably-sized machines. Choose from gravity or pump models and begin using the most flexible and dependable machine available.

Features Include:

- Separate touchpad controls for each cylinder let you make combination twists of differing products
- Patented mix injection system produces unmatched product quality (pump version)
- Labor saving gravity mix feed system offers simple operation and smoother, creamier product
- Unique freezing cylinder optimizes refrigeration efficiency
- Standby / energy conservation switch reduces operation costs during idle periods
- Low mix indicator lights with audible signal
- Self-monitoring system minimizes costly errors
- Built-in memory stores information to facilitate repairs
